IRRIGATION AND WATERWAYS DEPARTMENT

NOTIFICATIONS

No. 33-I.—8th December 1965.—The following draft of rules and Schedule of rates and appendices which, in exercise of the powers conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), the Governor proposes to make for the supply of water under the Kangsabati Reservoir Project in the district of Bankura, are hereby published, as required by the proviso to section 99 of the said Act, for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 15th February 1966 and any objection or suggestion with respect thereto which may be received by the undersigned before that date shall be duly considered.

Draft Rules, Schedule of Rates and Appendices

Leases for Kharif Irrigation

1. The country served by the canals of the Kangsabati Reservoir Project shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2. Each block determined as above shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officer. The Blocks shall also be marked on maps to be maintained by the same officer.

3. Leases for a Kharif irrigation may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions:—

I. Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently a separate lease may be granted for each part.

II. All leases within one block shall be so granted that they may expire on the same date.

III. No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area (i.e., the total area) for which and the limits of the canal within which, leases for Kharif irrigation may be granted.

5. Maps of all villages in which lands have been brought under lease or, in which there is any possibility of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps are to be at scale 32"=1 mile (F.P.S. scale map to be replaced by maps on corresponding metric scale).

6. The preliminary application for a lease for Kharif irrigation either new or renewal, shall be in writing in the prescribed form given in Appendix I to these rules to be obtained from the Subdivisional or Sectional Canal Office. It may be presented and shall be received either at the Subdivisional or at the Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer, as soon as he has, by personal enquiry or by an enquiry made by the Section Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that Officer may direct, and shall ask his formal approval to the lease being proceeded with. The lands to be brought under lease shall be indicated on a copy of the map referred to in rule 5. On receipt of the approval of the Divisional Canal Officer, the Subdivisional Canal Officer shall approach the Officer-in-charge of revenue collection work for the purpose of obtaining the detailed assessment and the latter shall in due course intimate the result of such assessment to the Subdivisional Canal Officer.

7. The Officer-in-charge of revenue collection work on being approached by the Subdivisional Canal Officer shall depute an amin to prepare the Khasra or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and Khasra. Should the survey map and Khasra not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring rod.

8. When the amin has completed the Khasra he shall forward it to the Officer-in-charge of revenue collection work who shall forward it to the Subdivisional Canal Officer who shall forward it to the Divisional Canal Officer for approval.

9. As soon as the Khasra has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval under intimation to the Officer-in-charge of revenue collection work.

The Subdivisional Canal Officer shall then prepare a Khatian or abstract of the Khasra, and shall have the form of application given in Appendix II to these rules, filled up and signed or marked by each of the applicants.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given in Appendix III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer through his Sectional Officer, the Divisional Canal Officer, with a copy of the permit for record.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that some of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer and the Subdivisional Canal Officer shall hold a local enquiry, regarding the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer may grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Leases for Rabi Irrigation

11. Applications for water to irrigate spring rice or other crops between the 1st November and the 30th June may be presented at the Subdivisional Canal Office or to the Sectional Officer. They shall be in the form given in Appendix IV to these rules.

In the applications the areas for which water is required shall be specified but the rate shall be charged on these areas for which water is actually used as determined by measurement.

The permit in the form given in Appendix V to these rules shall be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of Water

12. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

13. No water shall be supplied to any lands except such as have been brought under lease for Kharif or for Rabi irrigation.

14. Under the forms of irrigation lease in use, no specific supply of water is promised; but the undertaking is to give such supply to each lessee as may be necessary for the lands noted in the lease. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

15. The Divisional Canal Officer may give the required supply by rotation, should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water rates

16. The rates due for water supplied shall be collected by the Officer-in-charge of the revenue collection work through tahsildars and other staff. All Khatians or demand statements shall be signed by the Officer-in-charge of the revenue collection work after scrutiny in his office.

17. Each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved by the Officer-in-charge of revenue collection work for the purpose.

18. Each person on paying the amount due from him shall be given a receipt in the form prescribed for the purpose.

19. For the purposes of account and control over establishment, and of general administration, the Officer-in-charge of revenue collection work is directly under the Additional District Magistrate, Estate Acquisition, of the district. In regard to any proceedings taken under the Public Demands Recovery Act, 1913 (Bengal Act III of 1913), the Officer-in-charge of revenue collection work is subject to the control of the Additional District Magistrate, Estate Acquisition, of the district.

Unauthorised use of water and waste of water

20. Should it be necessary to take action under the provisions of sections 79 and 80 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), proceedings shall be instituted only under the direct order of the Divisional Canal Officer. The primary record of the facts regarding unauthorised use or waste of water shall be made by the Subdivisional Canal Officer or his subordinates. The parties reported to be using water in an unauthorised way or wasting water shall be called upon to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, given his reasons for or against assessment, both as regards the facts and as regards the law, and he shall determine the rate to be charged subject to the provisions in the Schedule of rates attached to these rules.

21. Should the Divisional Canal Officer decide that assessment should be made, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him and an abstract of the demand or Khatian shall be sent to the Officer-in-charge of the revenue collection work who shall then proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Bengal Irrigation Act, 1876 (Ben. Act III of 1876) shall be computed from the date on which the statement of the dues may be furnished to the persons assessed and the date shall be endorsed on it.

22. No proceedings shall be instituted if the unauthorised use or the waste of water have occured through the act or neglect of a canal officer or a subordinate officer employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorised use of water.

Complaints and Applications

23. All complaints or applications with respect to the supply of water, defective drainage, or administration of the canal, shall be received on presentation at either Divisional or Subdivisional Canal Office.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officer for disposal at his discretion.

When such complaints or applications are presented to the Sectional Canal Officer, he shall forward the same to the proper Office.

24. All complaints or applications with respect to correctness of the assessment shall be received at the office of the Officer-in-charge of the revenue collection work.

25. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

26. The Officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

27. The orders passed on all complaints or applications shall be in writing, and a copy of every order shall be furnished to the complainant or the applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876) shall be computed from the date on which the copy of the order is received by the person.

28. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

29. The Divisional Canal Officer may revise the proceedings of his Sud-divisional Canal Officers and the Superintending Engineer may call for and revise the proceedings of all officers under his control.

Remissions and Alteration and Demand

30. Whenever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Collector on the recommendation of the Divisional Canal Officer, provided that the person claiming remission shall have applied for such remission not less than fifteen days before the reaping of the crop.

31. Should the crop on lands under lease for kharif irrigation suffer material injury from excess of water due to deficient drainage, the Collector on the recommendation of the Divisional Canal Officer may grant remission for that year of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least fifteen days before the reaping of the crop.

32. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Collector.

33. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Officer-in-charge of the revenue collection work provided that no change involving any increase or decrease in the total area under lease shall be made, without the concurrence of the Divisional Canal Officer.

34. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause shall only be allowed under the special orders of the State Government.

Irrecoverable Demands

35. The writing off of those demands which are reported, after due enquiry by the Divisional Canal Officer or the Officer-in-charge of the revenue collection work, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death or owing to the defaulter having absconded may be sanctioned by the Collector, Commissioner or the Board of Revenue, as the case may be, subject to the monetary limits fixed by the Board of Revenue.

The Divisional Canal Officer may disallow in whole or in part this free irrigation, and may issue order to recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 37 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

The representative so nominated shall perform the same duties as stated in rule 37 and shall receive remuneration on the same scale as in rule 38.

Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be declined or cancelled with effect from the 1st of July next following.

The order to decline or cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

No. 83-F./FIS-3/65.—7th January 1966.—In exercise of the power conferred by the proviso to article 309 of the Constitution of India, read with article 313 of the said Constitution and paragraph 19 of the Adaptation of Laws Order, 1950, the Governor is pleased to make the following amendment in the West Bengal Service Rules, Part I, as subsequently amended (hereinafter referred to as the said rules), namely:—

Amendment

For the existing Note 4 under rule 75 of the said rules, substitute the following, namely: –

"Note 4.– The executive instructions regarding the procedure to be followed for ensuring uniformity in the operation of the proviso (i) to sub-rule (a) of rule 75 have been set forth in Appendix 9 to these rules.".

APPENDIX No. 9

(Procedural instructions under Note 4 of Rule 75 of the West Bengal Service Rules, Part I.)

It is desirable that in the operation of proviso (i) to sub-rule (a) of Rule 75, West Bengal Service Rules, Part I, a uniform procedure should be followed. In order to achieve the object the following instructions are laid down for guidance of all concerned:—

(i) Nine months before a Government servant attains the age of 55, his record should be carefully examined by the appointing authority, and a provisional judgment formed as to whether he should be retired within three months of his attaining the age of 55 years and if so, from what date.

(ii) Where the appointing authority comes to the conclusion that a Government servant should be retired within three months of his attaining the age of 55 years, he should, if he be an authority subordinate to the State Government, make a proposal accordingly to the Administrative Department of the Government concerned with a full indication of the considerations and reasons for the proposal and also of the date from which the retirement may have its effect. The Administrative Department should then deal with the case in a just and equitable manner and obtain the approval of the Minister-in-Charge of the department on the proposed course of action. Similarly, in a case where Government are the appointing authority, the Government Department concerned should first obtain the views of the Chief Secretary and then submit the case to the Chief Minister (through the Minister-in-Charge of the department) for approval. This process of obtaining the approval of the Higher Authorities should be completed in about three months' time, so that in the event of retirement being finally decided upon, a notice can be given to the Government servant concerned at least 6 months before the date on which the Government servant should retire. Leave preparatory to retirement, if asked for by such a Government servant should be given as a matter of course.

(iii) In a case where there are strong grounds to believe that an officer is lacking in integrity, it would be appropriate to consider him for retirement within three months of his attaining the age of 55 years, irrespective of an assessment of his ability or efficiency in work.

(iv) In a case in which an officer's integrity is not doubted but his physical or mental condition is such as to make him inefficient for further service. it would be appropriate to consider him for retirement, within three months of his attaining the age of 55 years.

(v) A Government servant with a satisfactory record of service should not be retired. Government servants are often described as "average". By this definition, the majority of Government servant in any service cadre would be average. Since under latest order the normal age of retirement has been raised to 58 years, Government feel that it is only when a Government servant falls below the average standard, that he may be proposed for retirement before attaining the age of 58. In considering whether a Government servant falls below the average standard, the question may sometimes arise whether he should be judged with reference to the requirement of his substantive post or those of the post in which he might be officiating. Ordinarily, fitness of a Government servant to continue in service up to the age of 58 years may be judged in relation to his substantive post; and if he is good enough for that post but not for the higher post in which he has been officiating he may be reverted to his substantive post but retained in service. But there may be difficulty in adopting such course in certain cases, for instance, when a Government servant has been officiating in higher post for a long time and it appears unlikely that he would put his heart into his work after reversion. This, however, is a question on which no hard and fast rule can be laid down, and each case will have to be carefully considered on its own merits.

(vi) Once it is decided that a Government servant should not be retired within three months of his attaining the age of 55 years, he should be allowed to continue up to the age of 58 years without any fresh review unless this be justified by any exceptional reasons, such as his subsequent work or conduct or the state of his physical health, which may make earlier retirement clearly desirable.

By order of the Governor,

J. L. KUNDU,

Financial Commissioner and Secy.

OFFICE OF THE ACCOUNTANT-GENERAL, WEST BENGAL

NOTIFICATION

Subject:—**Instructions regarding bills payable by the Accountant-General, West Bengal, within the Current Financial Year.**

No. TM/1-51/878.—1st February 1966.- In order to ensure payment before the close of the financial year, all travelling allowance, contingent, grant-in-aid and other bills payable within the year should be presented at the counter of this office by the 16th March 1966. The words "to be paid on or before the 31st March 1966" should be written prominently in red ink on the top of each bill. In respect of charges actually incurred or claims accruing on or after the 16th March, the bills should be presented with the utmost expedition without losing even a single day. It may be mentioned that during the last week of March this office is preoccupied with the passing of monthly bills, payable on the first working day of April.

2. Three clear working days are required by this office to complete all processes connected with the pre-audit of a bill. As such, bills marked payable within the 31st March 1966 may be received by this office up to the 26th March 1966. Only in exceptional cases at the express request of the sanctioning authorities, contingent bills involving large amounts and grant-in-aid bills will be received up to 29th March 1966 with the special permission of the Deputy Accountant-General (T.A.D.) in respect of bills payable from the counter of Treasury Buildings and of the Senior Deputy Accountant-General in respect of bills payable from the counter of the other wing of this office, namely, at 4, Brabourne Road, Calcutta-1. **In no case will any bill be received on the 30th and 31st March 1966.**

3. On the fourth working day from the date of presentation of a bill, the payee or his messenger should call at the delivery counter to demand payment. If for any reason payment cannot be obtained on that day, he should call on the next day, or on the second or third following day, should it become necessary. Any complaint regarding undue delay in payment should be loged with the gazetted officer in charge of the section. No attempt should be made to get into direct touch with the sectional staff.

4. It should be particularly borne in mind that unpassed bills are not returned by post; they are required to be received back at the counter on surrender of tokens.

5. All possible care should be taken to see that the bills presented are free from defects and irregularities as there may not be time left for resubmitting the bills, when once returned unpassed, with audit objection.

6. It will facilitate the payment of bills if the following instructions are borne in mind:

(a) If the appropriation for the current year is likely to be or has already been exceeded, an additional appropriation should be obtained in time to meet the excess and the order sanctioning the additional appropriation attached to the bills.

(b) If any charge requiring sanction of a higher authority is claimed in a bill, a true copy of the sanction should be attached to it. As no payment can be made on the authority of copies of orders, the sanctioning authority should be requested to communicate the orders to this office in time.

(c) If no distribution of any appropriation has yet been made, formal orders of the competent authority sanctioning the distribution should be attached to the bill.

(d) A bill extract giving particulars of the major, minor and detailed heads of account to which the amount of the bills is chargeable and the designation of the officer controlling the expenditure should invariably be attached to the bills.

7. Between the 16th and 31st March 1966 care should be taken to check the Bill Register every day with a view to receive all payments in good time.

8. As a special concession to payees, the Cash Payment and Cheque Delivery counters of this office will be kept open till 4-30 p.m. on the 31st March 1966. No payment will be made after that hour.

9. Establishment Bill for March 1966 will be paid by this office by the 1st April 1966 instead of on the 31st March 1966.

[illegible] with [illegible]

[illegible]

[illegible] fix the gross area [illegible] within which [illegible] *Kharif* [illegible] may be granted.

[illegible] been brought under lease or, [illegible] of such [illegible] be kept at the Sectional [illegible]. These maps are to be of scale 32"=1 mile (F.P.S. scale maps [illegible] replaced by maps on corresponding metric scale).

6. The preliminary application for a lease for *Kharif* irrigation either new or for renewal shall be in writing in the prescribed form given in Appendix I to these rules to be obtained from the Subdivisional or Sectional Canal Office. It may be presented and shall be received either at the Subdivisional or at the Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer, as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that Officer may direct, and shall ask his formal approval to the lease being proceeded with. The lands to be brought under lease shall be indicated on a copy of the map referred to in rule 5. On receipt of the approval of the Divisional Canal Officer, the Subdivisional Canal Officer shall approach the Officer-in-charge of revenue collection work for the purpose of obtaining the detailed assessment and the latter shall in due course intimate the result of such assessment to the Subdivisional Canal Officer.

7. The Officer-in-charge of revenue collection work on being approached by the Subdivisional Canal Officer shall depute an amin to prepare the *Khasra* or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and *Khasra*. Should the survey map and *Khasra* be not available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring rod.

8. When the amin has completed the *Khasra* he shall forward it to the Officer-in-charge of revenue collection work who shall forward it to the Subdivisional Canal Officer who shall forward it to the Divisional Canal Officer for approval.

9. As soon as the Khasra has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval under intimation to the Officer-in-charge of revenue collection work.

The Subdivisional Canal Officer shall then prepare a *Khatian* or abstract of the *Khasra*, and shall have the form of application given in Appendix II to these rules, filled up and signed or marked by each of the applicants.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given in Appendix III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer through his Sectional Officer. The Divisional Canal Officer shall return the application to the Subdivisional Canal Officer with a copy of the permit for record.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that some of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer. The Subdivisional Canal Officer shall then hold a local enquiry, regarding the statements of the persons who decline to sign the application and record his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign the application or whether the lease shall be declined. The Divisional Canal Officer may grant a lease when the lands of the cultivators of the block who have signed the application are not less than 95 per cent. of the net irrigable area of the block. If, in special cases, it is desirable to grant a lease even though the lands of the cultivators of the block who have not signed the application are more than five per cent. of the net irrigable area of the block, the Superintending Engineer may grant the lease by a written order, giving reasons for the grant of such lease.

Leases for Rabi Irrigation

11. Applications for leases for supply of water for *rabi* irrigation to irrigate spring rice or other crops between the 1st November and the 30th June may be presented at the Subdivisional Canal Office or to the Sectional Officer. They shall be in the form given in Appendix IV to these rules.

In the applications the areas for which water is required shall be specified but the rate shall be charged on these areas for which water is actually used as determined by measurement.

The permit in the form given in Appendix V to these rules shall be granted by the Subdivisional Canal Officer if he is able to supply the water for such irrigation.

Supply of Water

12. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

13. No water shall be supplied to any lands except such as have been brought under lease for *Kharif* or for *Rabi* irrigation.

14. Under the forms of irrigation lease in use, no specific supply of water is promised; but the undertaking is to give such supply to each lessee as may be necessary for the lands noted in the lease. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

15. The Divisional Canal Officer may give the required supply by rotation, should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water rates

16. The rates due for water supplied shall be collected by the Officer-in-charge of the revenue collection work through tahsildars and other staff. All *Khatians* or demand statements shall be signed by the Officer-in-charge of the revenue collection work after scrutiny in his office.

17. Each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved by the Officer-in-charge of revenue collection work for the purpose.

18. Each person on paying the amount due from him shall be given a receipt in the form prescribed for the purpose.

In regard to any proceedings taken under the Public Demands Recovery Act, 1913 (Beng. Act III of 1913), the Officer-in charge of revenue collection work shall be subject to the control of the Additional District Magistrate, Estate Acquisition, of the district.

Unauthorised use of water and waste of water

20. Should it be necessary to take action under the provisions of sections 79 and 80 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), proceedings shall be instituted only under the direct order of the Divisional Canal Officer. The primary record of the facts regarding unauthorised use or waste of water shall be made by the Subdivisional Canal Officer or his subordinates. The parties reported to be using water in an unauthorised way or wasting water shall be called upon to show cause why they should not be assessed for payment of water-rates. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, give his reasons for or against assessment, both as regards the facts and as regards the law, and he shall determine the rate to be charged subject to the provisions in the Schedule of rates attached to these rules.

21. Should the Divisional Canal Officer decide that assessment should be made, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him and an abstract of the demand or Khatian shall be sent to the Officer-in-charge of the revenue collection work who shall then proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Bengal Irrigation Act, 1876 (Beng. Act III of 1876) shall be computed from the date on which the statement of the dues may be furnished to the persons assessed and the date shall be endorsed on it.

22. No proceedings shall be instituted if the unauthorised use or the waste of water have occured through the act or neglect of a canal officer or a subordinate officer employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorised use of water.

Complaints and Applications

23. All complaints or applications with respect to the supply of water, defective drainage, or administration of the canal, shall be received on presentation at either Divisional or Subdivisional Canal Office

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officer for disposal at his discretion.

When such complaints or applications are presented to the Sectional Canal Officer, he shall forward the same to the proper Office.

24. All complaints or applications with respect to correctness of the assessment shall be received at the office of the Officer-in-charge of the revenue collection work.

25. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

26. The Officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

27. The orders passed on all complaints or applications shall be in writing, and a copy of every order shall be furnished to the complainant or the applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876) shall be computed from the date on which the copy of the order is received by the person.

28. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

29. The Divisional Canal Officer may revise the proceedings of his Sud-divisional Canal Officers and the Superintending Engineer may call for and revise the proceedings of all officers under his control.

Remissions and Alteration and Demand

30. Whenever the crop on land entitled to supply of water suffers material injury from insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Collector on the recommendation of the Divisional Canal Officer, provided that the person claiming remission has applied for such remission not less than fifteen days before the reaping of the crop.

31. Should the crop on lands under lease for *Kharif* irrigation suffer material injury from excess of water due to deficient drainage, the Collector on the recommendation of the Divisional Canal Officer may grant remission for that year of the rates due on such lands in whole or in part, provided that the person asking for remission has applied for such remission at least fifteen days before the reaping of the crop.

32. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Collector.

33. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Officer-in-charge of the revenue collection work provided that no change involving any increase or decrease in the total area under lease shall be made, without the concurrence of the Divisional Canal Officer.

36. Whenever the application for lease for *Kharif* irrigation has been approved by the Divisional Canal Officer, the Officer-in-charge of the revenue collection work shall, with concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

The Divisional Canal Officer may disallow in whole or in part this free irrigation, and may issue order to recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 37 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

39. The Divisional Canal Officer and the Officer-in-charge of revenue collection work shall maintain in their respective offices a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

40. Applicants for leases for *Rabi* irrigation shall from among themselves nominate one having substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 37 and shall be entitled to free irrigation on the same terms and conditions as mentioned in rule 38.

The order to decline or cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.
